

Rodeo Committee Report

Time 4:00 pm – 5:00 pm

The committee met to discuss the rodeo for the 2018 convention.

The committee decided that the rodeo overall went really well.

Some things to change for next year is a better marketing tool. The agriculture instructors feel that the rodeo is not marketed the way it should be. Austin Large and Tricia Sullivan said they would work on a better way to get the word out for the rodeo.

There was a mishap on the draw numbers for the stock. They are going to see what can be done to better improve the numbers draw for the exhibitors.

The committee agreed to change the writing concerning the timing of each event. It is written that each event would start at a certain time. However, most events were completed prior to the next start time. Next year, the timeline would be written to were each event would 'follow' the previous event when completed.

Overall the arena and facility was nice. The committee was okay with leaving the rodeo at the same place for next years' convention.
