

How All Area Teams and MVJ are Calculated

Each student performance for the contest is pulled off judging card. Their placing and the total number that judged in the contest are recorded and then converted to a percentage. The percentages are averaged together.

Here is an example:

Joe Smith

1st of 65 at Bexar Invitational Fall CDE's	= 1.5%
5th of 42 at Hondo Invitational Fall CDE AM Contest	= 11.9%
18th of 73 at Hill Invitational Fall CDE	= 24.7%
AVERAGE SCORE	= 12.7%

The student with the lowest percent is the Most Valuable Judger.

The next four lowest numbers will make up the All Area Team.

No school can have more than two on the team.

A teacher may nominate up to two.

Only members of a team who competed in the qualifying division can be nominated.

The committee voted that only students who participate in 50% or more of the contests recorded are eligible for the honors.

Sincerely,

Kenna Tatsch
